Portfolio

Chandigarh University, Mohali, PB

TECHNICAL SKILLS

Core Subjects

- Electrical Machines
- Mechatronics Basics
- Sensors & Actuators
- Industrial Automation (Academic)

Automation (Academic Exposure)

- PLC (Theory)
- SCADA (Conceptual Understanding)
- HMI (Basic Knowledge)
- VFD (Working Principles)

Robotics & Control

- Robotics Fundamentals (Academic)
- Control Systems (Basic Concepts)

Software & Tools

- SolidWorks (Basic)
- MATLAB (Basic)
- MS Word | PowerPoint

SOFT SKILLS

- Quick Learner & Adaptable
- Team Player
- Positive Attitude
- Problem Solving

PROFILE:

Aspiring Mechatronics Engineer pursuing B.E. in Mechatronics Engineering (Lateral Entry) at Chandigarh University, Mohali. With a Diploma in Electrical Engineering background and academic exposure to Industrial Automation, Robotics, PLC, SCADA, HMI, VFD, Sensors, and Actuators. Familiar with SolidWorks and MATLAB (Basic). Actively seeking hands-on training and practical exposure through Graduate Engineer Trainee or Internship opportunities in automation, robotics, and manufacturing domains.

EDUCATION

B.E. Mechatronics Engineering (Lateral Entry)

Chandigarh University, Mohali, Punjab | 2025 – Pursuing

Diploma in Electrical Engineering

Government Polytechnic, Katihar, Bihar | Completed 2025 | 72.08%

Matriculation (10th)

R.K.S. Siya Lakhan High School, Bihar | 2018 | 60%

PROJECTS

RC Hovercraft System (Minor Project | 2 Member Team)

- Designed RC controlled hovercraft using BLDC motors, ESC, and servo steering.
- Worked on CAD design, fabrication, assembly, and testing.
- Developed lift and forward thrust mechanism using dual motor setup.

Obstacle Avoiding Robot (Academic Project)

- Designed and built a robot using sensors and motor driver for obstacle detection.
- Implemented automatic navigation and direction change mechanism.
- Gained practical exposure to sensors, automation, and robotics concepts.

TRAINING & EXPOSURE

Vocational Training – Electrical Systems TL & AC Power House Depot (2 Weeks)

- Observed electrical panels, transformers, and power distribution systems.
- Learned basic industrial safety rules and standard working practices.
- Gained introductory exposure to real-time electrical operations.

CERTIFICATIONS

- AI Tools & ChatGPT Workshop – be10x
- Robotics Workshop (10 Days)
